Crisp and clear sound is very important whatever the event or venue, the crowd want to hear exactly what is being played, sung or spoken.

A PA (Public Address) Sound System can vary greatly, depending on its intended use, the size & type of venue, and the volume required for any particular audience. Whether you need to give a slight lift to the voice for a speech, in a moderately-sized room, or fill an area for an outdoor event. All of our audio systems can be tailored to suit your exact requirements.

We have a wealth of experience in catering for events of all sizes. We have a wide selection of microphones and other audio equipment for hire, suited for any event.

Lighting Design & Hire

We can provide anything from a few simple lights for a band, to a full stage rig with special effects.

For any kind of event to become a success, it is important that the lighting is perfect. Not only does it instil the right mood among the audience but it will also improve the visual experience. Whether it is a performance that needs to set the stage for a dramatic climax or a musical event that needs to set the perfect ambience, you can rely on our expertise.
